**Additional Feedback on your Supplier**

Ben was brilliant in all aspects - in the preparation, during the day and afterwards, sending us our excellent video just as we returned from honeymoon. He was very professional during the day and the standard of his work was top notch, and very reasonably priced.

**Why did you book this Supplier**

Initially because we were looking for someone to fit into our budget, but then it was obvious Ben was very professional and would do a great job for us.

Additional Feedback on your Supplier I can understand now how, after so much thought and planning people put into a wedding, how sometimes there can leave a little sense of disappointment rightly or wrongly, with services and vendors or even the venue because it hasn't quite measured up to expectations. Ben is not one of those people. Ben offers not only an excellent service at a great price, he shows a level of commitment and care to your special day that is genuinely heart-warming. His affordable nature and enthusiasm with which he goes about things is something seldom seen where a "job" is often just a "job" to people. Truly someone who cares about his customers and his craft, he deserves recognition in these awards for being someone that definitely adds to your wedding, and the excitement as well as his professional output. We can't speak highly enough of him. Ryan and Sarah

**Additional Feedback on your Supplier**

Ben was great- he even provided a list of music used by other couples in the last year when we were stuck on which music to use.

He communicated great throughout.

He was very clear when directing us on the shots he needed and he was discrete throughout so we didn't really notice he was there.( in a good way!)

**Why Did you book this Supplier**

My friend had him for her wedding and I was impressed by the way he worked and the high quality video at the end.

Loved his work and his friendly and professional manner

We wanted our wedding videoed so that in years to come we can look back at it and show our daughter when she is older. Ben came to our house showed us samples and we were very impressed. We then priced other videographers up and he seemed to be the best value and the best videographer. He is by far the best. X

In our first meeting with Ben, it was very clear the passion, commitment and care he had for his work.... This sold it to us straight away.

I booked because he took everything on board what we wanted, really friendly

~

Firstly cost. We had quotes of over £2000 and at £650 The Perfect Memory 1 hit the budget but 2 Ben was so personable and professional. He should be charging more given his competitors rates.
